EDUCATION

Dharmsinh Desai University

Nadiad, Gujarat

Bachelor of Technology, Computer Engineering
CGPA - 8.53

2022-2026

AB School

Navsari, Gujarat

GSEB (12th Board)
Percentage - 87.23

2021-2022

SKILLS

Languages:	C++, JavaScript, Java
Frameworks:	React, NodeJS, Express, Spring Boot
Tools & DevOps:	Git, GitHub, Docker, Redis, Redux, Postman, AWS, Messaging Queues, VS Code
Databases:	MySQL, MongoDB
CS Concepts:	System Design, CN, OOPS, OS, DBMS

WORK EXPERIENCE

Google Developer Student Clubs (GDSC)

2024 - 2025

Web Team Member

Dharmsinh Desai University

- Delivered a session on WebRTC at Tech Winter Break (GDG On Campus DDU) to 50+ students, covering real-time communication fundamentals and live demos.
- Organized DUHacks 4.0 as the Tech Lead, a hybrid-mode hackathon with over 5000+ participants, and contributed to the development of the official website; more at duhacks.tech.

PROJECTS

CodeX — [\[GitHub\]](#)

- Engineered a full-stack online coding platform for solving problems and hosting live contests using React, Node.js, Express, MySQL, and Prisma with JWT-based authentication.
- Integrated Judge0 for secure, sandboxed code execution and used webhooks to handle asynchronous result processing.
- Utilized Redis sorted sets to power a real-time leaderboard with time complexity reduced from linear to logarithmic for live updates.
- Implemented token bucket-based rate limiting and invisible reCAPTCHA on problem submission to mitigate abuse from bots and non-browser clients.

EventHive — [\[GitHub\]](#) [\[Demo\]](#)

- Built a MERN stack platform enabling event hosts and sponsors to interact via a bidding auction for sponsorships across multiple categories.
- Designed a real-time auction system using WebSockets to manage live bids, sync state instantly.
- Used a background queue to send automated emails to hosts and sponsors asynchronously after each successful bid.

CODING PLATFORMS

- [LeetCode](#)
- [GeeksforGeeks](#)
