Google Developer Student Clubs (GDSC)

2024 - 2025

Web Team Member

Dharmsinh Desai University

- Delivered a session on WebRTC at Tech Winter Break (GDG On Campus DDU) to 50+ students, covering real-time communication fundamentals and live demos.
- Organized DUHacks 4.0 as the Tech Lead, a hybrid-mode hackathon with over 5000+ participants, and contributed to the development of the official website; more at duhacks.tech.

PROJECTS

SmartTripPlanner — [\[GitHub\]](#) [\[Demo\]](#)

- Developed a smart travel planning platform recommending destinations based on user preferences using machine learning models, achieving 93.50% accuracy.
- Enabled users to generate AI-powered smart itineraries and save customized travel plans for future reference.
- Built frontend with React + Vite and backend APIs with Node.js, integrated Google OAuth and JWT for secure authentication, and deployed the model on FastAPI.

EventHive – [\[GitHub\]](#) [\[Demo\]](#)

- Built a MERN stack platform enabling event hosts and sponsors to interact via a bidding auction for sponsorships across multiple categories.
- Implemented real-time bidding with WebSocket and automated email notifications for hosts and sponsors, sharing contact details post-auction.

CODING PLATFORMS

- [LeetCode](#)
- [GeeksforGeeks](#)
